

Our solid journey since 1974 in Ship building, Ship repairing, Offshore we provide most Economical and Effective Engineering solutions.

We have successfully adopted all the required Guidelines of BWM Convention, implemented and installed in new builds and retrofits with approval and certification.

# BALLAST WATER MANAGEMENT SYSTEM INSTALLATION AT COLOMBO

Sri Lanka

**COLOMBO DOCKYARD PLC**

*"...an Odyssey of Excellence"*

The truly international Dockyard in South Asia with principal equity alliance with  Onomichi Dockyard Co. Ltd, Japan

Japan

BWTS Brand	BWTS Type	Model	Capacity	Vessel Name	Year of Delivery	Status
ERMA FIRST	FIT 1500	ACB-9100-400	1500 m3/hr	MV GANGA K	2021	Ongoing
HYUNDAI	HYUNDAI	HiBallast System	3000 m3/hr	MT SWARNA JAYANTHI	2021	Ongoing
Pan Asia	GloEn-Patrol	GloEn-P150	150 m3/hr	EXECUTIVE OSV SERIES (8 Vessels)	2013 - 2017	Completed
		GloEn-P250	250 m3/hr	LPGC EPIC BARNES	2021	Completed
ALFA LAVAL	PureBallast 3.2	3000 Ex	3,000 m3/hr	MT EAGLE SEVILLE	2020	Completed
		1000 Ex	1,000 m3/hr	MT SWARNA TANKER SERIES (4 Vessels)	2021	Ongoing
		Compact Flex	350 m3/hr	MV SOL BANGLADESH	2021	Ongoing
	PureBallast 3.1	Compact 170	170 m3/hr		2019	Completed
Headway	OceanGuard	HMT-50~4000	1,300 m3/hr	MV MALAKAND	2020	Completed
		HMT-600	780 m3/hr	MT MULTAN	2020	Completed
		HMT-450	585 m3/hr	MV GRACE	2021	Ongoing
		HMT-300	390 m3/hr	MV SIBI	2019	Completed
		HMT-200	260 m3/hr	LPG GAS CHALLENGER	2020	Completed
Sunrui	Sunrui Balclor	BC-1000	1000 m3/hr	MT BELLA	2020	Completed

With our good network with partnership of reputed proven Makers, we can provide most compatible and cost effective BWMS to your fleet.

**We are capable of materializing your requirement into a comprehensive Techno-commercial proposal and drawings through detailed engineering study of concept design, followed by onboard survey, 3D laser scanning and modeling. So we are geared to provide a one-stop BWMS solution to the clients**

With guaranteed certifications we can guide/ assist procuring best BWM solution and sub materials.

Parallel prefabrication of spools, steel structures will schedule compact installation duration which followed by commissioning and proven results at sea trail.

**We are absolutely capable in proceeding with routine or special dry docking or afloat repairs along with retrofit or introducing comprehensive and most economical BWMS solutions to suit your fleet teaming up with most trusted makers such as Panasia, Alfa Laval, Wartsila and Headway**
